

Session 13 Quiz - Prompting for Real Tasks

Track A | Grades 5-8

Q1 [Type: MCQ | Difficulty: Easy | QID:57315]

AI is extremely useful for when your brain feels empty and you need to ___ ideas to get started on a creative project.

- A. paraphrase
- B. spitball
- C. hallucinate
- D. verify

Correct Answer: B. spitball

Explanation: Generating many creative directions quickly when stuck is referred to as spitballing ideas in the source material. Paraphrasing rewrites existing text, hallucinating is when AI makes up false information, and verifying checks facts. Spitballing is the casual term for brainstorming.

Q2 [Type: MCQ | Difficulty: Easy | QID:57316]

When following the 'Smart Way' to research, you should upload a trusted article into ___ to use it as a verified source.

- A. Wikipedia
- B. Storybook
- C. NotebookLM
- D. QuillBot

Correct Answer: C. NotebookLM

Explanation: NotebookLM is specifically highlighted as the tool for research using sources you trust. It allows you to upload articles and ask questions based only on that content. Wikipedia is a general encyclopedia, QuillBot is for writing, and Storybook is not a research tool.

Q3 [Type: MCQ | Difficulty: Easy | QID:57318]

The tool best suited for fixing or improving your own existing writing is ____.

- A. ChatGPT
- B. QuillBot
- C. Gemini Image
- D. Britannica

Correct Answer: B. QuillBot

Explanation: QuillBot is described as an AI tool that helps you rewrite and polish your own words. ChatGPT generates new text, Gemini Image works with images, and Britannica is an encyclopedia. For editing your own writing, QuillBot is the recommended tool.

Q4 [Type: MCQ | Difficulty: Easy | QID:57319]

To ensure your research is accurate, you should always check the ____ at the bottom of a Wikipedia page.

- A. advertisements
- B. image captions
- C. references
- D. edit history

Correct Answer: C. references

Explanation: Checking the references (citations or links) at the bottom of a Wikipedia page ensures that the information provided is backed by expert sources. Advertisements, image captions, and edit history do not verify the factual accuracy of the content.

Q5 [Type: MCQ | Difficulty: Easy-Medium | QID:57320]

Asking an AI to explain a hard concept from class using an analogy is a form of ____.

- A. learning
- B. hallucinating
- C. cheating
- D. polishing

Correct Answer: A. learning

Explanation: Using AI to understand steps or clarify confusing topics is a responsible way to grow your knowledge. It is learning, not cheating, because you are using the AI as a tutor to help you understand, not to do your work for you.

Q6 [Type: True/False | Difficulty: Easy | QID:57321]

True or False: AI 'hallucinations' occur when the AI presents false information as if it were a true fact.

- A. True
- B. False

Correct Answer: A. True

Explanation: Hallucination is the technical term for when AI generates incorrect or made-up information confidently. It can sound very convincing but is not based on real facts. This is a major warning when doing research with AI.

Q7 [Type: True/False | Difficulty: Easy | QID:57322]

True or False: Using AI to generate an essay draft and turning it in as your own work is considered responsible use.

A. False

B. True

Correct Answer: A. False

Explanation: The rules state you should never copy-paste AI work and call it yours. You must be the author of your own work. That would be plagiarism, not responsible use.

Q8 [Type: True/False | Difficulty: Easy | QID:57323]

True or False: One way to tell if work is truly yours is if you can explain every part of it to someone else.

A. True

B. False

Correct Answer: A. True

Explanation: The ability to explain the work confirms you understand the core thinking and own the knowledge. This is one of the four questions in "The Big Test" for responsible AI use.

Q9 [Type: True/False | Difficulty: Easy | QID:57324]

True or False: You should use AI to replace your own voice entirely so that you sound more professional.

- A. True
- B. False

Correct Answer: B. False

Explanation: The source emphasizes that you should still sound like YOU and use AI only as an editor. Replacing your own voice entirely removes your personal touch and originality, which is not the goal.

Q10 [Type: True/False | Difficulty: Easy | QID:57325]

True or False: Iteration is the process of refining and improving your prompt multiple times until you get the best result.

- A. True
- B. False

Correct Answer: A. True

Explanation: Iteration is called the "secret weapon" of great prompt engineers. They usually iterate 2-3 times to improve context and specificity until the AI gives the desired result.

Q11 [Type: MCQ | Difficulty: Easy-Medium | QID:57326]

Which of the following is considered a 'grey area' task where you should check with your teacher first?

- A. Brainstorming a list of gift ideas for a friend
- B. Asking AI to explain fractions using a pizza analogy
- C. Using AI to fix grammar mistakes in your own paragraph
- D. Writing a draft using AI that you plan to heavily rewrite

Correct Answer: D. Writing a draft using AI that you plan to heavily rewrite

Explanation: The material lists using AI for starting drafts as a "Grey Area" that requires teacher permission. The other options (explaining concepts, fixing grammar, brainstorming) are generally acceptable without permission.

Q12 [Type: MCQ | Difficulty: Medium | QID:57327]

What is the final step in the 'Smart Way' research strategy after comparing ChatGPT and NotebookLM results?

- A. Dig deeper if the results do not match
- B. Immediately copy the first answer
- C. Delete the Wikipedia article
- D. Assume the AI is always right

Correct Answer: A. Dig deeper if the results do not match

Explanation: If sources disagree, a smart researcher continues to investigate or trusts the verified source (NotebookLM). You should not assume AI is always right, copy blindly, or delete sources without checking.

Q13 [Type: MCQ | Difficulty: Easy | QID:57328]

If you need to plan a schedule for a family movie night, which category of AI use are you engaging in?

- A. Writing
- B. Research
- C. Everyday Tasks
- D. Creative

Correct Answer: C. Everyday Tasks

Explanation: Planning, organizing, and making schedules fall under the "Everyday Tasks" category. Writing is for essays, research is for finding facts, and creative is for art or stories.

Q14 [Type: MCQ | Difficulty: Easy | QID:57329]

Which specific website is recommended for accurate and fun information about animals and nature?

- A. QuillBot
- B. National Geographic Kids
- C. Encyclopedia Britannica
- D. Wikipedia

Correct Answer: B. National Geographic Kids

Explanation: National Geographic Kids is listed as a trusted source specifically for nature and animal topics. QuillBot is for writing, Britannica is a general encyclopedia, and Wikipedia can be edited by anyone.

Q15 [Type: MCQ | Difficulty: Easy-Medium | QID:57330]

When using AI as a tutor, why might you tell it 'Don't show me the answers yet'?

- A. To make the AI work slower
- B. To hide your work from your teacher
- C. To practice solving the problems yourself first
- D. Because the AI doesn't know the answers

Correct Answer: C. To practice solving the problems yourself first

Explanation: Avoiding immediate answers allows you to learn by doing, which is the key to real learning. You want to attempt the problem yourself, then use the AI to check or guide you, not just give the answer.

Q16 [Type: MCQ | Difficulty: Easy-Medium | QID:57331]

Which of the following describes 'The Big Test' to ensure your work is not cheating?

- A. Checking if you can explain everything in the work
- B. Counting how many times you used a prompt
- C. Making sure the work is at least 1,000 words
- D. Seeing if the AI used fancy words

Correct Answer: A. Checking if you can explain everything in the work

Explanation: The ability to explain the work proves that the core thinking came from your brain. That is the most important test for whether work is truly yours and not just copied from AI.

Q17 [Type: MCQ | Difficulty: Easy-Medium | QID:57332]

In the QuillBot workflow, what is the very first thing you must do?

- A. Click the 'Summarize' button
- B. Write a sentence yourself
- C. Ask ChatGPT for a draft
- D. Check your references

Correct Answer: B. Write a sentence yourself

Explanation: You must start with your own words and ideas to remain the author of the work. QuillBot is an editor, not a generator. You write first, then use QuillBot to polish.

Q18 [Type: MCQ | Difficulty: Easy | QID:57333]

What is a 'responsible' thing to do when a teacher asks if you used AI on a project?

- A. Say no, even if you did
- B. Ask the AI what you should say
- C. Tell the truth and be honest
- D. Only tell the truth if they have proof

Correct Answer: C. Tell the truth and be honest

Explanation: Honesty is listed as a fundamental rule for responsible AI use. Lying about AI use breaks trust and violates academic integrity.

Q19 [Type: MCQ | Difficulty: Easy-Medium | QID:57334]

Why is it important to pick the 'right tool for the job'?

- A. So that you don't have to iterate
- B. To avoid paying for subscriptions
- C. Because your mentor will be angry if you don't
- D. Different tools have different strengths like research or creativity

Correct Answer: D. Different tools have different strengths like research or creativity

Explanation: Using the right tool, like NotebookLM for research or QuillBot for editing, ensures better and more accurate results. Each tool is designed for a specific purpose, and matching the tool to the task improves outcomes.

Q20 [Type: MCQ | Difficulty: Easy-Medium | QID:57335]

What should you do after your first prompt doesn't give you exactly what you wanted?

- A. Copy the bad answer anyway
- B. Add more context or be more specific in a new prompt
- C. Give up and do it the old-fashioned way
- D. Assume the AI is broken

Correct Answer: B. Add more context or be more specific in a new prompt

Explanation: Refining and improving your prompt (iteration) is the best way to get a useful result. Copying a bad answer, giving up, or assuming the AI is broken are not productive. Better prompts lead to better answers.
